

Purple Martin Project

Do you love birds and nature and are 18 years old or younger?

Have you ever wanted to be a part of a project that helps conserve a species and community with other young birders?

Then this is the project for you! You can see the amazing life of the purple martin and help Kelly Eastwood with nest checks, learn about this amazing bird, get volunteer hours and more! This project is in partnership with Baker Wetlands Discovery Center, and Missouri Young Birders Club. You can commit as much as you would like to. If you are interested in PMP please contact Kelly Eastwood at purplemartinlandlord@gmail.com and updates will continue in the following months as housing is put in place etc.

Location: Baker Wetlands Discovery Center in Lawrence Kansas
